

Ranjeyan A

M.SC., DATA SCIENCE (INTEGRATED)

Data science practitioner with a knack for identifying trends and crafting data-driven solutions. Experienced in Python, SQL, and key machine learning techniques. Known for a strong analytical mindset, collaborative spirit, and a deep curiosity for solving real-world problems using data.

PROJECTS

Restaurant Visitor Forecasting

Timeseries

Modeled the visitation data to predict the total number of visitors to a restaurant for future dates.

- Timeseries - ARIMA, SARIMAX, Facebook Prophet
- Ensemble - XGBoost, CatBoost, LightGBM

Movie Rental Store Analysis

PowerBI

Engineered a comprehensive Power BI dashboard analyzing customer behavior, inventory management, and operational performance using the Sakila database. Leveraged advanced SQL queries and data visualization techniques to deliver actionable insights for revenue optimization and strategic decision-making in the entertainment retail sector.

INTERNSHIPS

Flutter Developer/ Satyukt Analytics

DEC 2024- PRESENT / Internship, onsite

Developed an cross-platform mobile application that empowers agricultural stakeholders with cutting-edge satellite-based intelligence, revolutionizing precision farming across diverse agricultural landscapes.

Flutter Developer / Blackdot Innovations

JUN 2023 - DEC 2023 / Intership, Remote

- Built Flutter mobile application featuring ML-powered mental wellness assessment system that analyzes user assignment responses to predict personalized wellness scores.
- Designed user interfaces and implemented data tracking functionality to monitor mental health metrics and user progress.

PAPER PRESENTATION

Participated and presented a paper at the 2nd Virtual National Conference on Mathematical Modeling and Computation 2021.

EDUCATION

Coimbatore Institute of Technology

M.Sc., Data Science(Integrated) | 2020 - 2025

Vailankanni Higher Sec School

HSC | 2018 - 2020

SKILLS

Data Analysis
Data Visualization
Machine Learning
SQL
Python
Flutter

AREA OF INTEREST

Data-Driven Storytelling
Data Analysis
Generative AI
Business Intelligence & Visualization

TOOLS

PowerBI , MS Excel ,Tableau(Basics),
Jupyter Notebook, Git/Github

CERTIFICATION

SQL Basics

HACKERANK

Python Basics

HACKERANK

PowerBI Beginner to Pro

PRAGMATIC WORKS
